## Platamid<sup>®</sup> H 2707 Pellets

Copolyamide Hot Melt Adhesive / Extrusion Applications

Platamid® H 2707 is a standard thermoplastic copolyamide hot melt adhesive available in pellet form. This medium to high melt viscosity grade is particularly suitable for manufacturing webs, mono- and multi-filaments, and films by extrusion.

Platamid® H 2707 offers a good adhesion at low fusing conditions to various polar substrates (thermoplastics, thermosets, metal, natural fibers, etc.).

According to ASTM D6866, the biobased carbon content is measured at 20%.

### **AVAILABLE GRADES**

This grade is available:

- dried (H 2707 T)

## **PACKAGING**

- Platamid® H 2707 T is delivered in 25 kg sealed bags.

### SHELF LIFE

Two years from the date of delivery. For any use above this limit, please refer to our technical services.

## RENEWABLE CARBON CONTENT

20% (according ASTM D6866)
